NAME – OMKRIT PANDEY
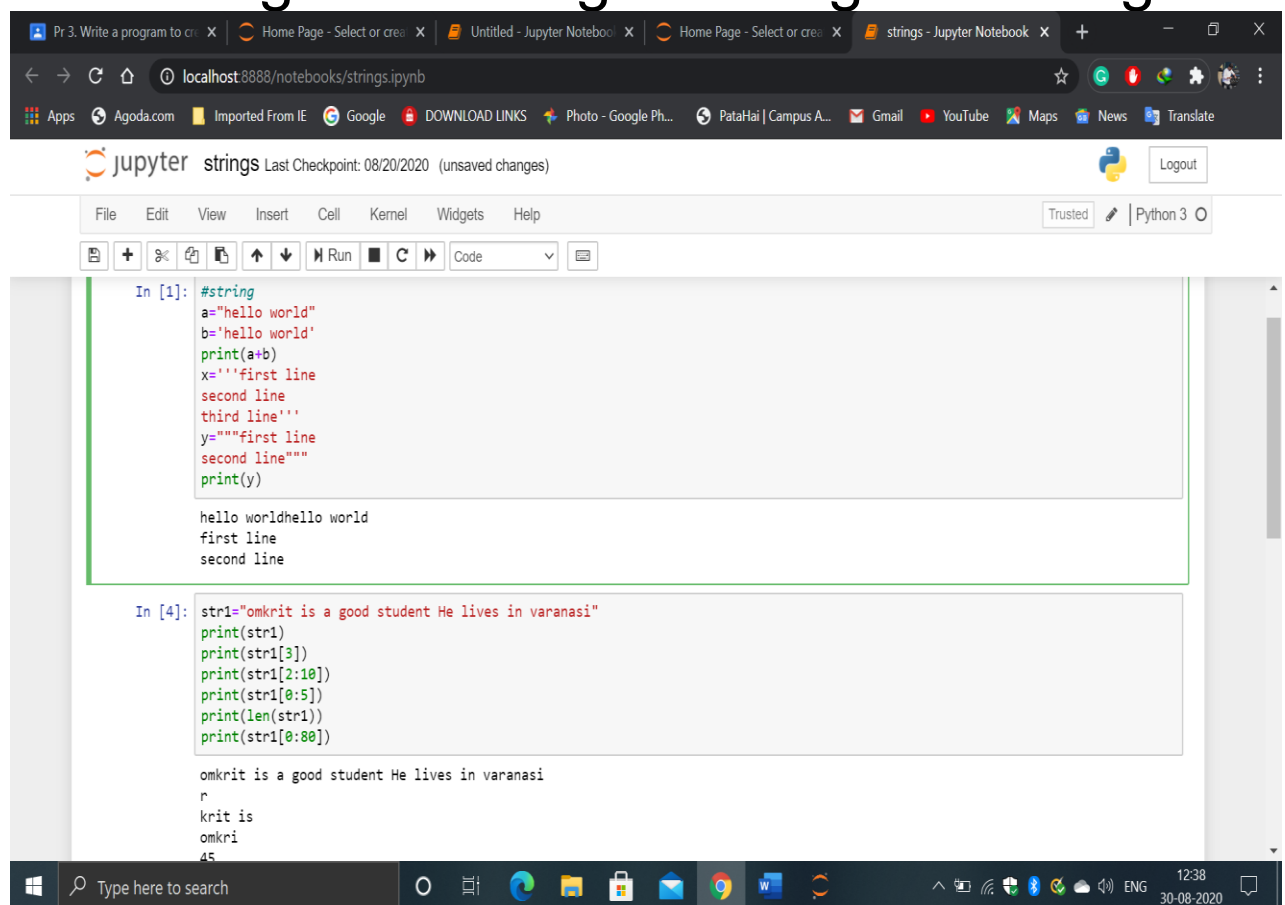

ROLL NO.-350

Pr3. Write a program to create, concatenate and print a string and accessing sub- string from a given string.

```python
In [1]: #string
        a="hello world"
        b='hello world'
        print(a+b)
        x='''first line
        second line
        third line'''
        y="""first line
        second line"""
        print(y)

        hello worldhello world
        first line
        second line
```

```python
In [4]: str1="omkrit is a good student He lives in varanasi"
        print(str1)
        print(str1[3])
        print(str1[2:10])
        print(str1[0:5])
        print(len(str1))
        print(str1[0:80])

        omkrit is a good student He lives in varanasi
        r
        krit is
        omkri
        45
```
